Tugas Git Cheat Sheet

- git init

A screenshot of a terminal window with a dark background. The window title bar shows 'MINGW64/c/Users/windows-10'. The terminal text shows the user 'windows-10@Lay' in a 'MINGW64' environment at the directory '~/OneDrive/Documents/Kuliah/Semester 4/DevOps (master)'. The user enters the command '\$ git init', and the terminal responds with 'Initialized empty Git repository in C:/Users/windows-10/OneDrive/Documents/Kuliah/Semester 4/DevOps/.git/'. The prompt '\$' is shown again on the next line.
